

## Laboratorio Kampar

Last updated: 13.02.2014

**Address:** Andrés de Fuenzalida 22, of.1103 – Santiago de Chile

**Tel:** +56 2 335 4030

**Web:** <http://www.kampar.cl/>

### Company description

Laboratorio Kampar's aim is to provide solutions and cures for complex diseases. The company initiated its operations as Laboratorio Kampar in 2005 by representing Laboratorios Kampel Martian de Argentina, previously existing through other companies since 1996. The company as it is today was financed by capital from Argentina, Chile and international investment funds.

Their main international commercial partners are LKM (Argentina), Medac (Germany), Helsinn (Switzerland), Gebro Pharma (Spain). All of the companies that they represent develop and produce their own product which are certified by the GMO, FDA or EMEA in their given production facilities. Within Chile they have established agreements with Grunenthal, Farindustria and Volta.
